WORK EXPERIENCE

Deep Silver Volition   Champaign, IL
Quality Assurance   June 2014-January 2015

- Identify critical flaws in the software performance that hinders the end user's experience
- Document defects in a bug database and effectively communicate how to reproduce issues to developers in a company of more than 200 employees
- Detect and report art imperfections such as alpha sorting, stretched textures, draw distance, and clipping

ATLAS (Applied Technologies for Learning in the Arts and Sciences)   Champaign, IL
Digital Signage Content Manager   January –July 2014

- Created webpage mock-ups for clients on Photoshop and wireframes for UIUC's LAS websites
- Helped clients define desired content and goals for their digital displays
- Developed Four Winds Interactive User Manual for company employees to reference
- Trained interns on Four Winds Interactive Software, Photoshop, and company practices and procedures

ATLAS (Applied Technologies for Learning in the Arts and Sciences)   Champaign, IL
Intern Position   October-December 2013

- Developed creative digital sign layouts and learned to implement new live data features and interactivity, including social media and wayfinding
- Learned to use company's new software (Four Winds Interactive) with no guidance
- Responded to client emails concerning their digital signs within a 24 hour period

National Kwikmetal Service (NKS)   Des Plaines, IL
Freelance –Mobile App Designer, Computer Support   June-August 2012

- Designed the company's first mobile app to calculate stainless steel coil dimensions
- Self taught MobiOne app development software and programmed custom needs with Javascript
- Tested app for correct functionality and design on both android and iphone
- Maintained active communication with client about new implementations for the app and future updates
